

# INTEGRATED MOVEMENT APPROACH

This approach integrates movement with all aspects of a preschooler's life by incorporating strategies such as **Active Navigation Routes**, **Active Play Corners**, **Brain Breaks** and **Integrated Learning**.

## BRAIN BREAKS

Brain Breaks are short bursts of movement activities that EC educators can introduce in between lessons to help preschoolers refocus their attention. Below is an example of a brain break.

**OBJECTIVE:** To get preschoolers active and moving.

### HOW TO PLAY:

The EC Educator will sing a song that mentions parts of the body. Preschooler will listen and touch the body parts according to the lyrics.

### NOTE:

EC Educators can complement this activity with this [song here](#).
