

INTEGRATED MOVEMENT APPROACH

This approach integrates movement with all aspects of a preschooler's life by incorporating strategies such as **Active Navigation Routes**, **Active Play Corners**, **Brain Breaks** and **Integrated Learning**.

BRAIN BREAKS

Brain Breaks are short bursts of movement activities that EC educators can introduce in between lessons to help preschoolers refocus their attention. Below is an example of a brain break.

OBJECTIVE: To get preschoolers active and moving.

HOW TO PLAY: Say out a number and invite children to get into groups based on the number called out.
