INTEGRATED MOVEMENT SINGAPORE APPROACH

This approach integrates movement with all aspects of a preschooler's life by incorporating strategies such as **Active Navigation Routes**, **Active Play Corners, Brain Breaks** and **Integrated Learning**.

BRAIN BREAKS

Brain Breaks are short bursts of movement activities that EC educators can introduce in between lessons to help preschoolers refocus their attention. Below is an example of a brain break.

WALKING IN THE

JUNGLE

OBJECTIVE: To get preschoolers active and moving.

HOW TO PLAY:

 Invite one preschooler to be the leader.
The leader will imitate an animal movement to move around while the other preschoolers follow.

Learn more about other movement strategies here.
